A man with short dark hair is sitting up in bed, looking down at a digital thermometer he is holding in his right hand. He is wearing a white t-shirt and red and black plaid pajama bottoms. A light blue quilted blanket is pulled up to his chest. A black and white dog is perched on his shoulder, looking towards the camera with its mouth slightly open. The background shows a bedroom with a white fireplace mantel, a lamp, and a white door.

Life doesn't paws when you're sick.

**Vaccines against respiratory illnesses can
help keep you from having a ruff time.**
